AAAI-12 Workshop Papers

Set Up Account: **TODAY!**

Camera-Ready Copy Due: May 16, 2012

\*\*\*\*\*

Dear AAAI-12 Workshop Authors,

Congratulations on the acceptance of your paper for the AAAI-12 Workshop on **Human Computation**. AAAI will be producing a technical report of all of the papers in your workshop, distributing it in CD format to workshop attendees, and placing the contents in the AAAI Digital Library.

The deadline for submission of your final camera-ready copy and all source files for your accepted paper, along with a signed distribution license, is **Tuesday, May 16, 2012 at 11:59 PM PDT** (please start your submission at least 30 minutes ahead of this deadline). The site will not accept submissions after that date and time. You will be required to create an account (or add AAAI-12 Workshops as one of your conferences) at the submission site in advance of submitting your paper files. We suggest that you create your account now to avoid delays when you are ready to submit your paper. Please note that submission of the final camera copy to AAAI using the style file or Word template in the Author Kit is mandatory for all authors.

Formatting and submission instructions (author kit) for the final version of your paper can be found at

<http://www.aaai.org/Publications/Author/ws-submit.php>

Please take a moment to review this page at your earliest convenience, and be sure to download the AAAI Press Author Kit available from that page. You will need it to format your paper. Old versions of the Author Kit are no longer acceptable, so please be sure to use the new one.

Please create an account and prepare your paper according to the AAAI Press Author Instructions at this site. (Please contact your workshop organizer if he or she has not already sent you the number of pages that you will be allotted in the technical report.) To avoid paper handling charges, you must comply with the Formatting Instructions for Authors, (available in the Author Kit, and also at <http://www.aaai.org/Publications/Author/formatting-instructions.pdf>). Once you have prepared your paper, you must submit the following to the submission site no later than May 16, 2012:

1. A complete abstract of your paper of no more than 250 words

2. A PDF that follows the AAAI Press guidelines (the submission file)
3. A compressed archive containing all the files necessary to recompile your paper on a separate computer not linked to your own (for Word, this is the "doc" file; for LaTeX, it includes all your figures, .sty files, bib files, dvi file, .tex file, and so forth). This archive should be uploaded in step 4 of the submission process as a supplementary file.

All authors are required to submit a signed AAAI distribution license, which can be found in the author kit (also available from <http://www.aaai.org/Publications/Author/distribute-permission.pdf>).

Please mail the signed form to AAAI (2275 East Bayshore Road, Suite 160, Palo Alto, CA 94303 USA). Only the primary author of the abstract needs to sign the document. If the original form will not reach the AAAI office by the deadline, please fax or email a copy to +1-650-321-4457 or [pubforms12@aaai.org](mailto:pubforms12@aaai.org). The original must still be submitted by postal mail.

Thank you!  
AAAI Press
